---

**Proficient** in HTML, CSS, Bootstrap, Tailwind CSS, Daisy UI, JavaScript, React JS, React router, Rest API, Firebase Authentication, and MongoDB.

**Comfortable** in Node JS, Express JS, React hook, and TanStack Query.

**Familiar** with Next JS, TypeScript, Styled Component, and Material UI.

**As Tools**, Brackets, VS Code, Sublime Text, Photoshop, Figma, Netlify, and GitHub are used.

## PROJECTS

---

A significant number of quality projects have been produced. Three of them are notable.

### Car Reseller - Product Reselling Website

- This site is three-role-based (Admin, Seller, and Buyer) with private and protected routes which have been built by react router dom.
- For authentication the **Firestore** authentication system and **JWT** token have been implemented, and **Stripe** payment system as payment method.
- Built with React js, Node js, Express js and used MongoDB as database. This is a Single page application and fully responsive.
